MAXFIELD

OPERATING MANUAL

WIRLESS CHARGING

PAD Compact

Product Overview

First Steps

Step 1

Connect the PAD compact via USB cable with an adapter. Then you plug the adapter into a power socket. The LED indicator will let you know in wich sate the Pad is.

Step 2

LED indicator	Product state
Red	Standby LED
Green (flashing)	Communication

In case the LED indicators does not work right try to plug and unplug the adapter from the power socket.

Step 3

Now put your wireless charging able device in the middel of the PAD. After a short sound it starts charging automatically. To see the battery state check your display.
After charging your device pleas remove it from the PAD.

Attention : As proof that the Pad communicates with the receiver, the communication LED still flashes after complete charging.
